FLEXIBLE

Do you need extra help to handle large rush orders, unexpected rework, periodic peak business cycles? We can provide that extra labor while you maintain a consistent workforce. You may choose to send the work to our facility or we will send a crew of workers with their supervisor to your facility.

Why hire temporary workers when you have a ready supply of workers who are eager to work on whatever job you have, whether large or small.

You pay your employees to perform vital company functions. Allow us to do those repetitive, labor

intensive, tedious jobs and free your employees to do their jobs. We can charge you by the piece, not by the hour.

By outsourcing your kitting and assembly functions, you will save money.

ECONOMICAL

We provide the following services at our site or at your site:

Light Packaging

Kitting

"Goody Bags"

Carton Assembly

Simple and Multi-piece pack outs

Hi Hope will be a partner helping you meet your specific needs.
